

Meritor Parts

Meritor Parts - The Meritor Company is a leading global dealer built upon 100 years of custom of service and quality. Meritor concentrates on integrated systems along with various modules and components to the original machine manufacturers and aftermarket equipment in the transportation and industrial sectors.

Meritor values the needs of their clients to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their global operations. Meritor begins with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than 11,200 individuals, Meritor encourages collaboration and innovation amongst a team of experienced professionals.

By just hiring future focused people, Meritor strongly thinks these top-caliber individuals would be able to quickly get used to to changing environments and exhibit the commitment and performance needed to be able to achieve results in the competitive materials handling business. The company empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor offers all of their staff different possibilities for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises axles, drivelines, suspension and braking systems used for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the needs of their international engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the world in 19 nations and in 5 different continents.

The supplier development network is specially situated to be able to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making within every part of the trade. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean methods.
