

Forklift Spreader Bars

Spreader Bar for Forklifts - Proudly operating since the year 1974, ELME Spreader AB is the largest independent spreader producer all over the world. They have been a devoted producer of spreaders utilized for numerous applications such as the trailers, handling of containers and swap bodies.

Engineering is done in-house by means of using all of the most up-to-date FEM tools and CAD systems. The ELME company currently employs more than 125 employees. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside across the globe.

The product series of ELME include many spreaders intended for various container and trailer handling operations. A few of their inventory consist of: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers in addition to a huge variety of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they made more than 1150 spreaders by means of utilizing top quality components in order to guarantee reliability and excellent standards while offering competitive prices. Major characteristics of ELME consist of design simplicity, market reaction and ground-breaking modular spreader concept.
